## TATA CHEMICALS INTERNATIONAL PTE. LTD.

### DIRECTORS' STATEMENT

The directors present their statement together with the audited financial statements of the company for the financial year ended March 31, 2016.

In the opinion of the directors, the financial statements as set out on pages 5 to 34 are drawn up so as to give a true and fair view of the financial position of the company as at March 31, 2016 and the financial performance, changes in equity and cash flows of the company for the financial year then ended and at the date of this statement, there are reasonable grounds to believe that the company will be able to pay its debts when they fall due.

#### 1 DIRECTORS

The directors of the company in office at the date of this report are:

Kottamasu Venkateswara Rao  
Ramakrishnan Mukundan  
John Mulhall

(Appointed on September 30, 2015)

#### 2 ARRANGEMENTS TO ENABLE DIRECTORS TO ACQUIRE BENEFITS BY MEANS OF THE ACQUISITION OF SHARES AND DEBENTURES

Neither at the end of the financial year nor at any time during the financial year did there subsist any arrangement whose object is to enable the directors to acquire benefits by means of the acquisition of shares or debentures in the company or any other body corporate.

#### 3 DIRECTORS' INTERESTS IN SHARES AND DEBENTURES

The directors holding office at the end of the financial year had no interests in the share capital and debentures of the company and related corporations as recorded in the register of directors' shareholdings kept by the company under Section 164 of the Singapore Companies Act, except as follows:

Name of director and company in which interests are held	<u>Shareholdings registered in name of director</u>	
	<u>At beginning of year</u>	<u>At end of year</u>
<b>The ultimate holding company</b> <b>- Tata Chemicals Limited</b> <i>Shares of Rs. 10/- each</i>		
Ramakrishnan Mukundan	500	500

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**DIRECTORS' STATEMENT**

**4 SHARE OPTIONS**

(a) Options to take up unissued shares

During the financial year, no options to take up unissued shares of the company were granted.

(b) Options exercised

During the financial year, there were no shares of the company issued by virtue of the exercise of an option to take up unissued shares.

(c) Unissued shares under option

At the end of the financial year, there were no unissued shares of the company under options.

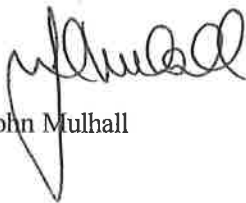

**5 AUDITORS**

The auditors, Deloitte & Touche LLP, have expressed their willingness to accept re-appointment.

ON BEHALF OF THE DIRECTORS

Kottamasu Venkateswara Rao

John Mulhall

May 6, 2016

## **INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF TATA CHEMICALS INTERNATIONAL PTE. LTD.**

### **Report on the Financial Statements**

We have audited the accompanying financial statements of Tata Chemicals International Pte. Ltd. (the "company"), which comprise the statement of financial position of the company as at March 31, 2016, and the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows of the company for the year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 5 to 34.

### **Management's Responsibility for the Financial Statements**

Management is responsible for the preparation of financial statements that give a true and fair view in accordance with the provisions of the Singapore Companies Act (the "Act") and Singapore Financial Reporting Standards, and for devising and maintaining a system of internal accounting controls sufficient to provide a reasonable assurance that assets are safeguarded against loss from unauthorised use or disposition; and transactions are properly authorised and that they are recorded as necessary to permit the preparation of true and fair financial statements and to maintain accountability of assets.

### **Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with Singapore Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**INDEPENDENT AUDITORS' REPORT TO THE MEMBER OF  
TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**Opinion**

In our opinion, the financial statements of the company are properly drawn up in accordance with the provisions of the Act and Singapore Financial Reporting Standards so as to give a true and fair view of the financial position of the company as at March 31, 2016 and the financial performance, changes in equity and cash flows of the company for the year ended on that date.

**Report on Other Legal and Regulatory Requirements**

In our opinion, the accounting and other records required by the Act to be kept by the company have been properly kept in accordance with the provisions of the Act.

# TATA CHEMICALS INTERNATIONAL PTE. LTD.

## NOTES TO FINANCIAL STATEMENTS

March 31, 2016

### 1 GENERAL

The company (Registration No. 200719636Z) is incorporated in the Republic of Singapore with its principal place of business and registered office at 80 Robinson Road, #14-02, Singapore 068898. The financial statements are expressed in United States dollars.

The principal activity of the company is that of general wholesaler trade and an investment holding company.

The financial statements of the company for the year ended March 31, 2016 were authorised for issue by the Board of Directors on May 6, 2016.

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

**BASIS OF ACCOUNTING** – The financial statements are prepared in accordance with the historical cost basis, except as disclosed in the accounting policies below, and are drawn up in accordance with the provisions of the Singapore Companies Act and Singapore Financial Reporting Standards (“FRS”).

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date, regardless of whether the price is directly observable or estimated using another valuation technique. In estimating the fair value of an asset or a liability, the company takes into account the characteristics of the asset or liability which market participants would take into account when pricing the asset or liability at the measurement date. Fair value for measurement and/or disclosure purposes in these financial statements is determined on such a basis, except for share-based payment transactions that are within the scope of FRS 102 *Share-based Payment*, leasing transactions that are within the scope of FRS 17 *Leases*, and measurements that have some similarities to fair value but are not fair value, such as net realisable value in FRS 2 *Inventories* or value in use in FRS 36 *Impairment of Assets*.

In addition, for financial reporting purposes, fair value measurements are categorised into Level 1, 2 or 3 based on the degree to which the inputs to the fair value measurements are observable and the significance of the inputs to the fair value measurement in its entirety, which are described as follows:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date;
- Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly; and
- Level 3 inputs are unobservable inputs for the asset or liability.

## TATA CHEMICALS INTERNATIONAL PTE. LTD.

### NOTES TO FINANCIAL STATEMENTS

March 31, 2016

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

**ADOPTION OF NEW AND REVISED STANDARDS** – On April 1, 2015, the company adopted all the new and revised FRSs and Interpretations of FRS (“INT FRS”) that are effective from that date and are relevant to its operations. The adoption of these new/revised FRSs and INT FRSs does not result in changes to the company’s accounting policies and has no material effect on the amounts reported for the current or prior years.

At the date of authorisation of these financial statements, the following new/revised FRSs, INT FRSs and amendments to FRSs which were issued but not effective, are relevant to the company:

- Amendments to FRS 1 Presentation of Financial Statements: Disclosure Initiative <sup>1</sup>
- FRS 109 *Financial Instruments* <sup>2</sup>
- FRS 115 *Revenue from Contracts with Customers* <sup>2</sup>
- Improvements to Financial Reporting Standards (November 2014) <sup>1</sup>

<sup>1</sup> Applies to annual periods beginning on or after January 1, 2016, with early application permitted.

<sup>2</sup> Applies to annual periods beginning on or after January 1, 2018, with early application permitted.

Consequential amendments were also made to various standards as a result of these new/revised standards.

#### **FRS 109 *Financial Instruments***

FRS 109 was issued in December 2014 to replace FRS 39 *Financial Instruments: Recognition and Measurement* and introduced new requirements for (i) the classification and measurement of financial assets and financial liabilities (ii) general hedge accounting (iii) impairment requirements for financial assets.

#### **Key requirements of FRS 109:**

All recognised financial assets that are within the scope of FRS 39 are now required to be subsequently measured at amortised cost or fair value through profit or loss (FVTPL). Specifically, debt investments that are held within a business model whose objective is to collect the contractual cash flows, and that have contractual cash flows that are solely payments of principal and interest on the principal outstanding are generally measured at amortised cost at the end of subsequent accounting periods. Debt instruments that are held within a business model whose objective is achieved both by collecting contractual cash flows and selling financial assets, and that have contractual terms that give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding, are measured at fair value through other comprehensive income (FVTOCI). All other debt investments and equity investments are measured at FVTPL at the end of subsequent accounting periods. In addition, under FRS 109, entities may make an irrevocable election, at initial recognition, to measure an equity investment (that is not held for trading) at FVTOCI, with only dividend income generally recognised in profit or loss.

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

With some exceptions, financial liabilities are generally subsequently measured at amortised cost. With regard to the measurement of financial liabilities designated as at FVTPL, FRS 109 requires that the amount of change in fair value of such financial liability that is attributable to changes in the credit risk be presented in other comprehensive income, unless the recognition of the effects of changes in the liability's credit risk in other comprehensive income would create or enlarge an accounting mismatch to profit or loss. Changes in fair value attributable to the financial liability's credit risk are not subsequently reclassified to profit or loss.

In relation to the impairment of financial assets, FRS 109 requires an expected credit loss model, as opposed to an incurred credit loss model under FRS 39. The expected credit loss model requires an entity to account for expected credit losses and changes in those expected credit losses at each reporting date to reflect changes in credit risk since initial recognition. In other words, it is no longer necessary for a credit event to have occurred before credit losses are recognised.

The management is currently evaluating the impact of FRS 109.

**FRS 115 *Revenue from Contracts with Customers***

In November 2014, FRS 115 was issued which establishes a single comprehensive model for entities to use in accounting for revenue arising from contracts with customers. FRS 115 will supersede the current revenue recognition guidance including FRS 18 *Revenue*, FRS 11 *Construction Contracts* and the related Interpretations when it becomes effective.

The core principle of FRS 115 is that an entity should recognise revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. Specifically, the standard introduces a 5-step approach to revenue recognition:

Step 1: Identify the contract(s) with a customer

Step 2: Identify the performance obligations in the contract

Step 3: Determine the transaction price

Step 4: Allocate the transaction price to the performance obligations in the contract

Step 5: Recognise revenue when (or as) the entity satisfies a performance obligation.

Under FRS 115, an entity recognises revenue when (or as) a performance obligation is satisfied, i.e. when "control" of the goods or services underlying the particular performance obligation is transferred to the customer. Far more prescriptive guidance has been added in FRS 115 to deal with specific scenarios. Furthermore, extensive disclosures are required by FRS 115.

The management is currently evaluating the impact of FRS 115.

## TATA CHEMICALS INTERNATIONAL PTE. LTD.

### NOTES TO FINANCIAL STATEMENTS

March 31, 2016

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

Other than FRS 109 and FRS 115, management anticipates that the adoption of the above/other FRSs, INT FRSs and amendments to FRS in future periods will not have a material impact on the financial statements of the company in the period of their initial adoption.

**CONSOLIDATED FINANCIAL STATEMENTS** - The financial statements of the subsidiaries and joint venture have not been consolidated and equity accounted for with the company's financial statements as the company itself is a wholly-owned subsidiary of Tata Chemicals Limited incorporated in India, which prepares consolidated financial statements. Such financial statements are publicly available.

The registered address of the ultimate holding company presenting the group financial statements is Tata Chemicals Limited, Bombay House, 24 Homi Mody Street, Fort, Mumbai 400 001 (India).

Control is achieved when the company:

- Has power over the investee;
- Is exposed, or has rights to variable returns from its involvement with the investee; and
- Has the ability to use its power to affect its returns.

Investments in subsidiaries and joint venture in the financial statements of the company are stated at cost less any impairment in net recoverable value that has been recognised in profit or loss.

**FINANCIAL INSTRUMENTS** - Financial assets and financial liabilities are recognised on the statement of financial position when the company becomes a party to the contractual provisions of the instrument.

#### Effective interest method

The effective interest method is a method of calculating the amortised cost of a financial instrument and of allocating interest income or expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts or payments (including all fees on points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial instrument, or where appropriate, a shorter period. Income and expense is recognised on an effective interest basis for debt instruments other than those financial instruments "at fair value through profit or loss".

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**Financial assets**

Trade and other receivables

Trade and other receivables are measured initially at fair value plus transaction costs and subsequently at amortised cost using the effective interest method less impairment. Interest is recognised by applying the effective interest method, except for short-term balances when effect of discounting is immaterial.

Cash and cash equivalents

Cash and cash equivalents in the statement of cash flows comprise of cash on hand and cash at bank that are readily convertible to a known amount of cash and are subject to an insignificant risk of changes in value.

Impairment of financial assets

Financial assets are assessed for indicators of impairment at the end of each reporting period. Financial assets are considered to be impaired when there is objective evidence that, as a result of one or more events that occurred after the initial recognition of the financial asset, the estimated future cash flows of the investment have been impacted.

For all other financial assets, objective evidence of impairment could include:

- significant financial difficulty of the issuer or counterparty; or
- default or delinquency in interest or principal payments; or
- it becoming probable that the borrower will enter bankruptcy or financial re-organisation.

For financial assets carried at amortised cost, the amount of the impairment is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade and other receivables where the carrying amount is reduced through the use of an allowance account. When a trade or other receivable is uncollectible, it is written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against the allowance account. Changes in the carrying amount of the allowance account are recognised in profit or loss.

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment loss was recognised, the previously recognised impairment loss is reversed through profit or loss to the extent the carrying amount of the investment at the date the impairment is reversed does not exceed what the amortised cost would have been had the impairment not been recognised.

Derecognition of financial assets

The company derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the company neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the company recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the company retains substantially all the risks and rewards of ownership of a transferred financial asset, the company continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

**Financial liabilities and equity instruments**

Classification as debt or equity

Financial liabilities and equity instruments issued by the company are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability and an equity instrument.

Equity instruments

An equity instrument is any contract that evidences a residual interest in the assets of the company after deducting all of its liabilities. Equity instruments are recorded at the proceeds received, net of direct issue costs.

Trade and other payables

Trade and other payables are initially measured at fair value, net of transaction costs and are subsequently measured at amortised cost, using the effective interest method except for short-term balances when the recognition of interest would be immaterial.

## TATA CHEMICALS INTERNATIONAL PTE. LTD.

### NOTES TO FINANCIAL STATEMENTS

March 31, 2016

#### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

##### Bank loans

Interest-bearing bank loans and overdrafts are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in accordance with the company's accounting policy for borrowing costs (see below).

##### Derecognition of financial liabilities

The company derecognises financial liabilities when, and only when, the company's obligations are discharged, cancelled or they expire.

**DERIVATIVE FINANCIAL INSTRUMENTS** – The company enters into derivative financial instruments to manage its exposure to interest rate through interest rate swaps. Further details to derivative financial instruments are disclosed in Note 8 of the financial statements.

Derivatives are initially recognised at fair value at the date a derivative contract is entered into and are subsequently remeasured at fair value at the end of each reporting period. The resulting gain or loss is recognised in profit or loss immediately unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of hedge relationship.

A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not expected to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

**PROPERTY AND EQUIPMENT** – All items of property and equipment are initially recorded at cost. The cost of an item of property and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the company and the cost of the item can be measured reliably.

Subsequent to recognition, property and equipment are measured at cost less accumulated depreciation and any accumulated impairment losses. Depreciation is computed on a straight line basis over the estimated useful lives of the assets as follows:

Computer	- 3 years
Office equipment	- 3 years
Leasehold improvements	- Over the period of the lease (3 years)

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

The residual values, estimated useful life and depreciation method are reviewed at each year end, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal.

The gain or loss arising on disposal or retirement of an item of property and equipment is determined as the difference between the sales proceeds and the carrying amounts of the asset and is recognised in profit or loss.

**IMPAIRMENT OF TANGIBLE ASSETS** – At the end of each reporting period, the company reviews the carrying amounts of its tangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the company estimates the recoverable amount of the cash-generating unit to which the asset belongs. Where a reasonable and consistent basis of allocation can be identified, corporate assets are also allocated to individual cash-generating units, or otherwise they are allocated to the smallest group of cash-generating units for which a reasonable and consistent allocation basis can be identified.

Recoverable amount is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset for which the estimates of future cash flows have not been adjusted.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised immediately in the profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset in prior years. A reversal of an impairment loss is recognised immediately in the profit or loss.

# TATA CHEMICALS INTERNATIONAL PTE. LTD.

## NOTES TO FINANCIAL STATEMENTS

March 31, 2016

### 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

**JOINT VENTURE** - A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The requirements of FRS 39 are applied to determine whether it is necessary to recognise any impairment loss with respect to the company's investment in a joint venture. When necessary, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with FRS 36 *Impairment of Assets* as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs to sell) with its carrying amount, any impairment loss recognised forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance with FRS 36 to the extent that the recoverable amount of the investment subsequently increases.

**PROVISIONS** - Provisions are recognised when the company has a present obligation (legal or constructive) as a result of a past event, it is probable that the company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at the end of the reporting period, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cash flows estimated to settle the present obligation, its carrying amount is the present value of those cash flows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that reimbursement will be received and the amount of the receivable can be measured reliably.

**LEASES** – Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

#### The company as lessee

Rentals payable under operating leases is recognised on a straight-line basis over the term of the relevant lease unless another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed. Contingent rentals arising under operating leases are recognised as an expense in the period in which they are incurred.

In the event that lease incentives are received to enter into operating leases, such incentives are recognised as a liability. The aggregate benefit of incentives is recognised as a reduction of rental expense on a straight-line basis, except where another systematic basis is more representative of the time pattern in which economic benefits from the leased asset are consumed.

## **TATA CHEMICALS INTERNATIONAL PTE. LTD.**

### **NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

#### **2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**REVENUE RECOGNITION** – Revenue is measured at the fair value of the consideration received or receivable. Revenue is reduced for estimated customer returns, rebates and other similar allowances.

Sales of goods – Revenue from the sale of goods is recognised when all the following conditions are satisfied:

- The company transferred to the buyer the significant risks and rewards of ownership of the goods;
- The company retains neither continuing managerial involvement to the degree usually associated with ownership nor effective control over goods sold;
- The amount of revenue can be measured reliably;
- It is probable that the economic benefits associated with the transaction will flow to the company; and
- The cost incurred or to be incurred in respect of the transaction can be measured reliably.

**Dividend income** - Dividend income from investments is recognised when the shareholder's rights to receive the payment have been established.

**Interest income** – Interest income is accrued on a timely basis, by reference to the principal outstanding and at the effective interest rate applicable.

**BORROWING COSTS** - Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation. All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

**RETIREMENT BENEFIT COSTS** - Payments to defined contribution retirement plans and are charged as an expense when employees have rendered the services entitling them to the contributions. Payments made to state-managed retirement benefit schemes, such as the Singapore Central Provident Fund, are dealt with as payments to defined contribution plans where the company's obligations under the plans are equivalent to those arising in a defined contribution retirement benefit plan.

**EMPLOYEE LEAVE ENTITLEMENT** - Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

**INCOME TAX** – Income tax for the financial year comprises current and deferred tax.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit as reported in the statement of profit or loss and other comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are not taxable or tax deductible. The company's liability for current tax is calculated using tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on the differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences and deferred tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax is calculated at the tax rates that are expected to apply in the period when the liability is settled or the asset realised based on the tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority and the company intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax are recognised as an expense or income in profit or loss.

**FOREIGN CURRENCY TRANSACTIONS** - The financial statements of the company are measured and presented in United States dollars, which is the currency of the primary economic environment in which the company operates (its functional currency).

In preparing the financial statements of the company, transactions in currencies other than the company's functional currency are recorded at the rate of exchange prevailing on the date of the transaction. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at the end of the reporting period. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)**

Exchange differences arising on the settlement of monetary items, and on retranslation of monetary items are included in profit or loss for the period. Exchange differences arising on the retranslation of non-monetary items carried at fair value are included in profit or loss for the period except for differences arising on the retranslation of non-monetary items in respect of which gains and losses are recognised in other comprehensive income. For such non-monetary items, any exchange component of that gain or loss is also recognised in other comprehensive income.

**3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY**

In the application of the company's accounting policies, which are described in Note 2, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

**(i) Critical judgements in applying the company's accounting policies**

The directors are of the opinion that any instances of application of judgements are not expected to have a significant effect on the amounts recognised in the financial statements.

**(ii) Key sources of estimation uncertainty**

Management has not made any significant assumptions concerning the future that will have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year except as disclosed below.

**Impairment of investments in subsidiaries and joint venture**

The investments in subsidiaries and joint venture are reviewed by management at the end of each reporting period to determine whether there is any indication that those investments have suffered an impairment loss. If any such indication exists, the carrying amounts of the investments are determined on the basis of the latest financial performance including budget forecasts and business plans of the subsidiaries and joint venture to determine the extent of the impairment loss.

# TATA CHEMICALS INTERNATIONAL PTE. LTD.

## NOTES TO FINANCIAL STATEMENTS

March 31, 2016

### 3 CRITICAL ACCOUNTING JUDGEMENTS AND KEY SOURCES OF ESTIMATION UNCERTAINTY (cont'd)

Management has reviewed the above information of the subsidiaries and joint venture, and appropriate allowance for impairment loss on the investments in the subsidiaries and joint venture have been recorded as at the end of the reporting period. The carrying amounts of investments in subsidiaries and joint venture at the end of the reporting period are disclosed in Notes 11 and 10 respectively. If the financial performance of the subsidiaries and joint venture were to deteriorate, this may result in a reduction in the net recoverable value of the subsidiaries and joint venture and the potential recording of further impairment loss.

#### Allowance for doubtful debts

The company's allowance for doubtful debts is based on management's evaluation of collectability of debts, ageing analysis of accounts and on management's estimate. A considerable amount of judgement is required in assessing the ultimate realisation of these receivables, including the current creditworthiness, the past collection history of each customer, and on-going dealings with these parties. If the financial conditions of the customers were to deteriorate, resulting in an impairment of their ability to make payments, additional allowance may be required.

As at March 31, 2016, the company's trade and other receivables amounted to US\$31,890,776 (2015 : US\$20,956,590).

### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT

#### Categories of financial instruments

The following table sets out the financial instruments as at the end of the reporting period:

	<u>2016</u> US\$	<u>2015</u> US\$
<u>Financial assets</u>		
Loans and receivables (including cash and cash equivalents)	33,906,347	21,792,868
Derivative financial instruments	-	162,534
<u>Financial liabilities</u>		
Amortised cost	233,540,238	229,888,106
Derivative financial instruments	130,843	-

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)**

*Financial risk management policies and objectives*

The company operates internationally and is exposed to a variety of financial risks, comprising credit risk, market risk (including interest rate risk and foreign currency risk) and liquidity risk.

The company uses a variety of derivative financial instruments to manage its exposure to interest rate risk, including interest rate swaps to mitigate the risk of rising interest rates.

The company does not hold or issue derivative financial instruments for speculative purposes.

There has been no change to the company's exposure to these financial risks or the manner in which it manages and measures the risk.

a) Credit risk management

Credit risk is the risk of financial loss to the company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the company's receivables from customers. The maximum exposure to credit risk for each class of financial assets is the carrying amount of that class of financial instruments presented on the statement of financial position.

Management assesses the credit quality of each customer, taking into account its financial position, past experience and other factors. The credit risk on liquid funds and derivative assets is limited because the counterparties are financial institutions with high credit ratings. The company has policies in place to ensure that invoices for goods provided to customers are collected within an appropriate time period and that loss to the company is minimised in the event of default. The collateral held for trade receivables include letter of credit from reputable banks recommended by the company.

Further information on trade and other receivables is disclosed in Note 7.

b) Interest rate risk management

The company is exposed to interest rate risk through the impact of rate changes on interest bearing liabilities and assets.

The interest rate and terms of repayment of bank loans of the company are disclosed in Note 12 to the financial statements.

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)**

No sensitivity analysis is prepared as the company does not expect any material effect on the company's results arising from the effects of reasonably possible changes to interest rates on interest bearing financial instruments at the end of the reporting period.

**c) Foreign currency risk management**

The company's foreign currency exposures arise mainly from the exchange rate movements of Singapore dollar against United States dollar.

Those exposures are managed primarily by using natural hedges that arise from offsetting assets and liabilities that are denominated in foreign currencies.

At the end of the reporting period, the carrying amounts of monetary assets and monetary liabilities denominated in currencies other than the company's functional currency are as follows:

	<u>Assets</u>		<u>Liabilities</u>	
	<u>2016</u> US\$	<u>2015</u> US\$	<u>2016</u> US\$	<u>2015</u> US\$
Singapore dollars	<u>75,813</u>	<u>140,986</u>	<u>93,594</u>	<u>131,035</u>

*Foreign currency sensitivity*

No sensitivity analysis is prepared as the company does not expect any material effect on the company's results arising from the effects of reasonable possible changes to foreign currency exchange rates on the financial statements of the company.

**d) Liquidity risk management**

Liquidity risk reflects the risk that company will have inadequate resources to meet its financial liabilities as they fall due. Liquidity risk is managed by matching the payment and receipt cycle. The company's operations are financed mainly through share capital and preference shares. The ultimate holding company has provided a guarantee to repay the bank loans of the company in case of any default.

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)**

As at March 31, 2016, the company has current liabilities in excess of current assets by US\$4,386,190 (2015 : US\$13,646,803). Management has assessed and are satisfied that financial support from the ultimate holding company is available when required.

As at the end of the reporting period, all the non-derivative financial assets and liabilities of the company are either repayable on demand or due within 1 year, except for long-term bank loans as below.

Non-derivative financial liability

	On demand or within <u>1 year</u> US\$	Within 2 <u>to 5 years</u> US\$	<u>Adjustment</u> US\$	<u>Total</u> US\$
<u>2016</u>				
Fixed rate – long-term bank loans	<u>4,024,632</u>	<u>202,872,068</u>	<u>(10,062,976)</u>	<u>196,833,724</u>
<u>2015</u>				
Fixed rate – long-term bank loans	<u>6,576,422</u>	<u>211,444,182</u>	<u>(20,826,070)</u>	<u>197,194,534</u>

e) Fair values of financial assets and financial liabilities

The carrying amounts of cash and cash equivalents, trade and other receivables and payables, short-term bank loans and accruals approximate their respective fair values due to the relatively short term maturity of these financial instruments. The fair value of the long-term borrowings are disclosed in Note 12 to the financial statements.

Derivative financial instruments (Note 8)

<u>Financial (liability) asset</u>	<u>Fair value as at</u>		<u>Fair value hierarchy</u>	<u>Valuation technique</u>
	<u>2016</u> US\$	<u>2015</u> US\$		
Interest rate swap	(130,843)	162,534	Level 2	Discounted cash flow <sup>(1)</sup>

<sup>(1)</sup> Future cash flows are estimated based on forward interest rates (from observable yield curves at the end of the reporting period) and contract interest rates, discounted at a rate that reflects the credit risk of various counterparties.

## TATA CHEMICALS INTERNATIONAL PTE. LTD.

### NOTES TO FINANCIAL STATEMENTS

March 31, 2016

#### 4 FINANCIAL INSTRUMENTS, FINANCIAL RISKS AND CAPITAL RISKS MANAGEMENT (cont'd)

##### Capital risk management policies and objectives

The company reviews its capital structure at least annually to ensure that the company will be able to continue as a going concern. The capital structure of the company comprises only of issued share capital and preference shares. The company's overall strategy remains unchanged from 2015.

#### 5 HOLDING COMPANY AND RELATED COMPANIES

The company is a wholly-owned subsidiary of Bio Energy Venture – 1 (Mauritius) Pvt. Ltd., incorporated in Mauritius. The company's ultimate holding company is Tata Chemicals Limited, incorporated in India. Related companies in these financial statements refer to members of the ultimate holding company's group of companies.

Some of the company's transactions and arrangements are between members of the group and the effect of these on the basis determined between the parties are reflected in these financial statements. The intercompany balances are unsecured, repayable on demand and interest-free unless otherwise stated.

Significant transactions with related companies, other than as disclosed elsewhere in the financial statements, are as follows:

	<u>2016</u> US\$	<u>2015</u> US\$
Purchase of goods from related companies	58,254,327	29,509,495
Reimbursement of expenses from ultimate holding company	23,905	18,005
Interest income from subsidiary	315,496	238,922
Dividend income from subsidiary	18,430,136	17,376,976
Guarantee commission expense from ultimate holding company	<u>1,240,221</u>	<u>1,280,936</u>

#### 6 OTHER RELATED PARTIES

There have been no significant related party transactions other than the transactions with the related companies as disclosed above.

There are no key management personnel apart from the company's directors. No remuneration is paid to directors for the financial years ended March 31, 2016 and 2015.

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**7 TRADE AND OTHER RECEIVABLES**

	<u>2016</u> US\$	<u>2015</u> US\$
Trade receivables – outside parties	24,054,871	10,117,702
Other receivables:		
Deposits	34,752	64,202
Accrued interest due from subsidiary	522,173	206,677
Advance due from subsidiary	7,277,135	10,562,448
Prepayments	-	1,728
Others	<u>1,845</u>	<u>3,933</u>
Total	<u>31,890,776</u>	<u>20,956,690</u>

The company is exposed to concentration of credit risk as 46% (2015 : 60%) of its trade receivables are due from two customers (2015 : one customer) and 24% of its total trade and other receivables are due from a subsidiary (2015 : 51%).

The company manages its credit risk by transacting with established companies. The company's credit terms are generally 30 to 180 days (2015 : 30 to 120 days). No interest is charged on the outstanding balance.

In respect of the advance due from subsidiary, the amount is repayable within the next 12 months and interest is charged at 3.2% to 5% per annum (2015 : 3.2% to 5%).

In determining the recoverability of a trade receivable, the company considers any change in the credit quality of the trade receivable from the date credit was initially granted up to the end of the reporting period and the past collection history of each customer. Based on management's assessment, no allowance for doubtful debts was required as there has been no significant change in credit quality and the amounts are still considered recoverable.

Trade receivables are not past due as at end of the reporting period.

**8 DERIVATIVE FINANCIAL INSTRUMENTS**

	<u>2016</u>		<u>2015</u>	
	<u>Assets</u> US\$	<u>Liabilities</u> US\$	<u>Assets</u> US\$	<u>Liabilities</u> US\$
Interest rate swaps, not designated in hedge accounting relationships	<u>-</u>	<u>(130,843)</u>	<u>162,534</u>	<u>-</u>

**TATA CHEMICALS INTERNATIONAL PTE. LTD.**

**NOTES TO FINANCIAL STATEMENTS**

**March 31, 2016**

**8 DERIVATIVE FINANCIAL INSTRUMENTS (cont'd)**

The company uses interest rate swaps to manage its exposure to interest rate movements on its bank borrowings by swapping the borrowings from floating rates to fixed rates.

All the company's interest rate swaps are not designated as hedging instruments. The fair value carrying amount of these interest rate swaps as at year end amounts to a derivative financial liability of US\$130,843 (2015 : derivative financial asset of US\$162,534), and the change in the fair value has been recognised in profit or loss.

The interest rate swaps settle on a half yearly basis. The floating rate on the interest swaps is the Singapore interbank offered rate. The company will settle the difference between the fixed and the floating interest rate on a net basis.

**10 INVESTMENT IN JOINT VENTURE**

	<u>2016</u> US\$	<u>2015</u> US\$
Unquoted equity shares, at cost	18,161,169	16,718,792
Impairment loss	<u>(18,161,169)</u>	<u>(16,718,792)</u>
	-	-

*Movement in impairment loss is as follows:*

	<u>2016</u> US\$	<u>2015</u> US\$
Balance at the beginning of the year	(16,718,792)	-
Impairment loss for the year	<u>(1,442,377)</u>	<u>(16,718,792)</u>
Balance at the end of the year	<u>(18,161,169)</u>	<u>(16,718,792)</u>

Details of joint venture of the company is as follow:

<u>Name of joint venture</u> <u>(place of incorporation)</u>	<u>Principal activities</u>	<u>Percentage of interest held</u> <u>in 2015 and 2016</u>
JOil (S) Pte Ltd (incorporated in Singapore)	Research and development	33.78%

Management has considered and assessed the recoverable value of its investment as of March 31, 2016 and 2015. Arising from the assessment, an allowance for impairment loss of US\$Nil (2015 : US\$16,718,792) on its investment in JOil (S) Pte Ltd ("JOil"), has been recognised in profit or loss for the year. The aim of JOil was to develop and market a Jatropha based bio-fuel product. In 2015, following a review of the business and product development plans, project delays and other external factors, including the significant reduction in the price of oil, and the financial performance of the joint venture, the company has determined that, at present, the investment will not achieve its initial aims and recoverable amount and this continues to be the situation for 2016. As such, in 2015, the company had fully impaired the value of its investment which had significant capital deficiency and had been loss making, and included a provision for the final two tranches of shares it is obligated to invest in under the 2008 share subscription agreement, which amounts to US\$2,910,361 as disclosed in the statement of financial position.

During the year, a provision of US\$1,442,377 was transferred to impairment loss balance subsequent to an additional cash call by the joint venture on one of the tranches.

**11 INVESTMENT IN SUBSIDIARIES**

	<u>2016</u> US\$	<u>2015</u> US\$
Unquoted equity shares, at cost	793,997,013	792,797,013
Impairment loss	<u>(92,660,133)</u>	<u>(91,760,133)</u>
	<u>701,336,880</u>	<u>701,036,880</u>

*Movement in impairment loss is as follows:*

	<u>2016</u> US\$	<u>2015</u> US\$
Balance at the beginning of the year	(91,760,133)	(62,180,809)
Impairment loss for the year	<u>(900,000)</u>	<u>(29,579,324)</u>
Balance at the end of the year	<u>(92,660,133)</u>	<u>(91,760,133)</u>

Details of the company's subsidiaries at March 31, 2016 are as follows:

<u>Name of subsidiary</u>	<u>Country of incorporation</u>	<u>Proportion of ownership interest</u>		<u>Proportion of voting power held</u>		<u>Principal activities</u>
		<u>2016</u> %	<u>2015</u> %	<u>2016</u> %	<u>2015</u> %	
Homefield Pvt. UK Ltd	England	100	100	100	100	Investments holding
Gusiute Holdings (UK) Limited	England	100	100	100	100	Investments holding

Management had assessed and made an allowance for impairment loss of US\$900,000 (2015 : US\$29,579,324) on its investment in Homefield Pvt. UK Ltd, which had been recognised in profit or loss for the year. The recoverable amount of the investment has been determined based on its value in use. The key assumptions used in determining the recoverable amount related to discount rate, revenue growth, operating margins, capital expenditures and non-operating cash balances, as at the assessment date. The discount rates applied to the cash flow projections of Homefield Pvt. UK Ltd subsidiaries was 13% (2015 : 13%) and 7.75% (2015 : 7.75%) for the Kenyan and UK businesses respectively and were based on the weighted average cost of capital. The growth rate used to extrapolate the cash flows beyond the forecast period is 1% (2015 : 1%) (Kenya) and 2% (2015 : 2%) (UK), which does not exceed the long term growth rate for the relevant market.
