Tata Chemicals' Mithapur Facility Achieves 1 Million Tonnes Soda Ash Production Milestone in FY 2025–26

Mithapur, Gujarat, 30 March, 2026- Tata Chemicals Limited today announced a key operational milestone, with its Mithapur facility in Gujarat reaching 1 million tonnes of soda ash production in FY 2025–26.

This milestone reflects the consistent efforts and strong collaboration across teams, including operations, maintenance, utilities, logistics, procurement, quality, safety, and other support functions. The contribution of the Marketing & Sales teams has also been instrumental in enabling this achievement.

To mark the occasion, employees at the Mithapur site came together, with senior leadership inaugurating a commemorative plaque and unveiling the miniature of one-millionth tonne bag of soda ash. The event served as a lasting reminder of the team's commitment to operational excellence.

Rino Raj, Vice President and Site Head – Mithapur, Tata Chemicals Limited, said: *"Reaching the 1 million tonne milestone is a direct outcome of the operational rigour and commitment demonstrated by our teams on the ground. From plant efficiency to reliability and safety, every function has contributed to ensuring consistent performance. This achievement belongs to the people at Mithapur who deliver excellence every single day."*

Nandakumar S Tirumalai, Chief Financial Officer, Tata Chemicals Limited, added: *"From a financial standpoint, this milestone reflects disciplined execution and a strong focus on cost optimisation and asset productivity. Sustained improvements in operational efficiency enable us to enhance margins while maintaining resilience in a competitive environment, supporting long-term value creation for our stakeholders."*

This achievement further strengthens Tata Chemicals' position in the global soda ash industry and underlines its focus on efficiency, reliability, and sustainable operations.
