**1. Basis of Presentation**

**Description of Business**

General Chemical International Inc. ("Company") is an inactive corporation. It is a subsidiary of Tata Chemicals North America Inc. ("TCNA").

**2. Summary of Significant Accounting Policies**

**Use of Estimates**

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("U.S. GAAP") requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

**Income Taxes**

The financial statements contain no provision or liability for income taxes because the results of the Company's operations are included with TCNA's consolidated return.
