Dear Sir,

Sub: Intimation under Regulation 30 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (LODR) Regulations

The Company is operating a Fertiliser plant at Haldia which, inter alia, manufactures DAP, SSP and complex NPK fertilisers wherein ammonia is used as one of the feedstock.

In this regard, we wish to inform you that the Company has today signed an MOU with Sanjana Cryogenics Storage Ltd (SCSL), its Ammonia Terminal Operator, for rerouting a portion of the ammonia pipeline that runs from the Haldia Dock to the Ammonia Storage tank. This has been done at the directive of Kolkata Port Trust for facilitating the set up a Multi-Modal Terminal Hub at Haldia by Inland Waterways Authority of India (IWAI). This pipeline re-routing activity is likely to cause a shutdown of operations by about 5 weeks in September-October, 2016 due to interruption of ammonia supply to the TCL-Haldia phosphatic fertilizer plant.

Further updates in this regard will be provided when the actual shutdown of the Haldia Plant for the above purpose is undertaken in September – October 2016.

This is for your information and records.

Thanking you,

**Yours faithfully,
For Tata Chemicals Limited**

(Rajiv Chandan)

General Counsel & Company Secretary
